Dear Sir/Madam,

**DA / 3 / 2018 - PUBLIC NOTIFICATION
MATERIAL CHANGE OF USE FOR RELOCATABLE RETIREMENT LIVING
LOTS 11, 4 & 1 BRUCE HIGHWAY, BENARABY (CNR BRUCE HIGHWAY & TANNUM SANDS ROAD)
11SP200678, 1RP620530 & 4CTN2091**

I write to express my support for the development application described above. I understand the proposal and offer my support for this development application for the following reasons:

Expert analysis shows there is a **dire need for over 268 retirement dwellings** in this region right now, growing to over 720 in the next 20 years. The proposed retirement village is **very different to a residential development** offering a community lifestyle, grouping likeminded over 50 year olds, encouraging social networking, development of community spirit and provision of recreational and community activities to keep retirees physically and mentally active boosting their wellbeing and preventing feelings of isolation.

This development is well planned and partly contained within the **Priority Living Area under the CQ Regional Plan**. Due diligence studies show it can be successfully implemented. It is a short drive to Shopping Centres, Medical Facilities and public recreational facilities and attractions.

This development is compatible with surrounding businesses and recreational activities. Acoustic amenity can be provided for residents. Expert noise studies have included adjacent business activities and maximum noise levels expected from the **full Motorsport Precinct Masterplan. Site agreements signed by residents will protect the Motorsport Precinct from reverse amenity issues. Quarry and Landfill activities will spread away from the housing area and will continue to pose no negative impact on the site. All dwellings will be outside the transport corridor.**

This development supports the **GRC Corporate Plan** offering diversity to the local economy, will create a resilient community group and retain over 50s in the region who often volunteer for community/sporting clubs, charity groups and churches. It supports the **GRC Economic Development Strategy** providing business diversity, is a family owned enterprise, is regionally focused addressing identified community need and is innovative being unprecedented in Australia.

This Lifestyle Village will be an enviable place to live, is extremely well researched, designed and planned by experts to ensure it is compatible with its neighbours, will be unique within Australia, will provide a substantial jobs boost to locals in the region and a substantial boost to the Gladstone Region economy with approximately \$300M investment. It will retain locals who will continue to support the local community through their expenditure with local businesses and their support of local clubs, groups and organisations with their membership and volunteerism.

Thank you for including my support in your considerations and I trust you will agree that this development is desperately needed and ideally located within the Gladstone Region.

Yours sincerely,

This development supports the **GRC Corporate Plan** offering diversity to the local economy, will create a resilient community group and retain over 50s in the region who often volunteer for community/sporting clubs, charity groups and churches. It supports the **GRC Economic Development Strategy** providing business diversity, is a family owned enterprise, is regionally focused addressing identified community need and is innovative being unprecedented in Australia.

This Lifestyle Village will be an enviable place to live, is extremely well researched, designed and planned by experts to ensure it is compatible with its neighbours, will be unique within Australia, will provide a substantial jobs boost to locals in the region and a substantial boost to the Gladstone Region economy with approximately \$300M investment. It will retain locals who will continue to support the local community through their expenditure with local businesses and their support of local clubs, groups and organisations with their membership and volunteerism.

Thank you for including my support in your considerations and I trust you will agree that this development is desperately needed and ideally located within the Gladstone Region.

Yours sincerely,

Dear Sir/Madam,

DA / 3 / 2018 - PUBLIC NOTIFICATION
MATERIAL CHANGE OF USE FOR RELOCATABLE RETIREMENT LIVING
LOTS 11, 4 & 1 BRUCE HIGHWAY, BENARABY (CNR BRUCE HIGHWAY & TANNUM SANDS ROAD)
11SP200678, 1RP620530 & 4CTN2091

I write to express my support for the development application described above. I understand the proposal and offer my support for this development application for the following reasons:

Expert analysis shows there is a **dire need for over 268 retirement dwellings** in this region right now, growing to over 720 in the next 20 years. The proposed retirement village is **very different to a residential development** offering a community lifestyle, grouping likeminded over 50 year olds, encouraging social networking, development of community spirit and provision of recreational and community activities to keep retirees physically and mentally active boosting their wellbeing and preventing feelings of isolation.

This development is well planned and partly contained **within the Priority Living Area under the CQ Regional Plan**. Due diligence studies show it can be successfully implemented. It is a short drive to Shopping Centres, Medical Facilities and public recreational facilities and attractions.

This development is compatible with surrounding businesses and recreational activities. Acoustic amenity can be provided for residents. Expert noise studies have included adjacent business activities and maximum noise levels expected from the **full Motorsport Precinct Masterplan. Site agreements signed by residents will protect the Motorsport Precinct from reverse amenity issues. Quarry and Landfill activities will spread away from the housing area and will continue to pose no negative impact on the site. All dwellings will be outside the transport corridor.**

This development supports the **GRC Corporate Plan** offering diversity to the local economy, will create a resilient community group and retain over 50s in the region who often volunteer for community/sporting clubs, charity groups and churches. It supports the **GRC Economic Development Strategy** providing business diversity, is a family owned enterprise, is regionally focused addressing identified community need and is innovative being unprecedented in Australia.

Expert noise studies have included adjacent business activities and maximum noise levels expected from the **full Motorsport Precinct Masterplan. Site agreements signed by residents will protect the Motorsport Precinct from reverse amenity issues. Quarry and Landfill activities will spread away from the housing area and will continue to pose no negative impact on the site. All dwellings will be outside the transport corridor.**

This development supports the **GRC Corporate Plan** offering diversity to the local economy, will create a resilient community group and retain over 50s in the region who often volunteer for community/sporting clubs, charity groups and churches. It supports the **GRC Economic Development Strategy** providing business diversity, is a family owned enterprise, is regionally focused addressing identified community need and is innovative being unprecedented in Australia.

This Lifestyle Village will be an enviable place to live, is extremely well researched, designed and planned by experts to ensure it is compatible with its neighbours, will be unique within Australia, will provide a substantial jobs boost to locals in the region and a substantial boost to the Gladstone Region economy with approximately \$300M investment. It will retain locals who will continue to support the local community through their expenditure with local businesses and their support of local clubs, groups and organisations with their membership and volunteerism.

Thank you for including my support in your considerations and I trust you will agree that this development is desperately needed and ideally located within the Gladstone Region.

Yours sincerely,

Dear Sir/Madam,

DA / 3 / 2018 - PUBLIC NOTIFICATION
MATERIAL CHANGE OF USE FOR RELOCATABLE RETIREMENT LIVING
LOTS 11, 4 & 1 BRUCE HIGHWAY, BENARABY (CNR BRUCE HIGHWAY & TANNUM SANDS ROAD)
11SP200678, 1RP620530 & 4CTN2091

I write to express my support for the development application described above. I understand the proposal and offer my support for this development application for the following reasons:

Expert analysis shows there is a **dire need for over 268 retirement dwellings** in this region right now, growing to over 720 in the next 20 years. The proposed retirement village is **very different to a residential development** offering a community lifestyle, grouping likeminded over 50 year olds, encouraging social networking, development of community spirit and provision of recreational and community activities to keep retirees physically and mentally active boosting their wellbeing and preventing feelings of isolation.

This development is well planned and partly contained **within the Priority Living Area under the CQ Regional Plan**. Due diligence studies show it can be successfully implemented. It is a short drive to Shopping Centres, Medical Facilities and public recreational facilities and attractions.

This development is compatible with surrounding businesses and recreational activities. Acoustic amenity can be provided for residents. Expert noise studies have included adjacent business activities and maximum noise levels expected from the **full Motorsport Precinct Masterplan. Site agreements signed by residents will protect the Motorsport Precinct from reverse amenity issues. Quarry and Landfill activities will spread away from the housing area** and will continue to pose no negative impact on the site. **All dwellings will be outside the transport corridor.**

This development supports the **GRC Corporate Plan** offering diversity to the local economy, will create a resilient community group and retain over 50s in the region who often volunteer for community/sporting clubs, charity groups and churches. 11SP200678, 1RP620530 & 4CTN2091

I write to express my support for the development application described above. I understand the proposal and offer my support for this development application for the following reasons:

Expert analysis shows there is a **dire need for over 268 retirement dwellings** in this region right now, growing to over 720 in the next 20 years. The proposed retirement village is **very different to a residential development** offering a community lifestyle, grouping likeminded over 50 year olds, encouraging social networking, development of community spirit and provision of recreational and community activities to keep retirees physically and mentally active boosting their wellbeing and preventing feelings of isolation.

This development is well planned and partly contained within the **Priority Living Area under the CQ Regional Plan**. Due diligence studies show it can be successfully implemented. It is a short drive to Shopping Centres, Medical Facilities and public recreational facilities and attractions.

This development is compatible with surrounding businesses and recreational activities. Acoustic amenity can be provided for residents. Expert noise studies have included adjacent business activities and maximum noise levels expected from the **full Motorsport Precinct Masterplan. Site agreements signed by residents will protect the Motorsport Precinct from reverse amenity issues. Quarry and Landfill activities will spread away from the housing area and will continue to pose no negative impact on the site. All dwellings will be outside the transport corridor.**

This development supports the **GRC Corporate Plan** offering diversity to the local economy will create a resilient community group, retaining over 50s who often volunteer for community/sporting clubs, charity groups and churches. It supports the **GRC Economic Development Strategy** providing business diversity, is a family owned enterprise, regionally focused addressing identified community need and is innovative being unprecedented in Australia.

This Lifestyle Village will be an enviable place to live, is extremely well researched, designed and planned by experts to ensure it is compatible with its neighbours, will be unique within Australia, will provide a substantial jobs boost to locals in the region and a substantial boost to the Gladstone Region economy with approximately \$300M investment. It will retain locals who will continue to support the local community through their expenditure with local businesses and their support of local clubs, groups and organisations with their membership and volunteerism.

Thank you for including my support in your considerations and I trust you will agree that this development is desperately needed and ideally located within the Gladstone Region.

Yours sincerely,

Dear Sir/Madam,

DA / 3 / 2018 - PUBLIC NOTIFICATION
MATERIAL CHANGE OF USE FOR RELOCATABLE RETIREMENT LIVING
LOTS 11, 4 & 1 BRUCE HIGHWAY, BENARABY (CNR BRUCE HIGHWAY & TANNUM SANDS ROAD)
11SP200678, 1RP620530 & 4CTN2091

I write to express my support for the development application described above. I understand the proposal and offer my support for this development application for the following reasons:

Expert analysis shows there is a **dire need for over 268 retirement dwellings** in this region right now, growing to over 720 in the next 20 years. The proposed retirement village is **very different to a residential development** offering a community lifestyle, grouping likeminded over 50 year olds, encouraging social networking, development of community spirit and provision of recreational and community activities to keep retirees physically and mentally active boosting their wellbeing and preventing feelings of isolation.

This development is well planned and partly contained within the **Priority Living Area under the CQ Regional Plan**. Due diligence studies show it can be successfully implemented. It is a short drive to Shopping Centres, Medical Facilities and public recreational facilities and attractions.

This development is compatible with surrounding businesses and recreational activities. Acoustic amenity can be provided for residents. Expert noise studies have included adjacent business activities and maximum noise levels expected from the **full Motorsport Precinct Masterplan. Site agreements signed by residents will protect the Motorsport Precinct from reverse amenity issues. Quarry and Landfill activities will spread away from the housing area and will continue to pose no negative impact on the site. All dwellings will be outside the transport corridor.**

This development supports the **GRC Corporate Plan** offering diversity to the local economy will create a resilient community group, retaining over 50s who often volunteer for community/sporting clubs, charity groups and churches. It supports the **GRC Economic Development Strategy** providing business diversity, is a family owned enterprise, regionally focused addressing identified community need and is innovative being unprecedented in Australia.

This Lifestyle Village will be an enviable place to live, is extremely well researched, designed and planned by experts to ensure it is compatible with its neighbours, will be unique within Australia, will provide a substantial jobs boost to locals in the region and a substantial boost to the Gladstone Region economy with approximately \$300M investment. It will retain locals who will continue to support the local community through their expenditure with local businesses and their support of local clubs, groups and organisations with their membership and volunteerism.

Thank you for including my support in your considerations and I trust you will agree that this development is desperately needed and ideally located within the Gladstone Region.

Yours sincerely,

Dear Sir/Madam,

DA / 3 / 2018 - PUBLIC NOTIFICATION
MATERIAL CHANGE OF USE FOR RELOCATABLE RETIREMENT LIVING
LOTS 11, 4 & 1 BRUCE HIGHWAY, BENARABY (CNR BRUCE HIGHWAY & TANNUM SANDS ROAD)
11SP200678, 1RP620530 & 4CTN2091

I write to express my support for the development application described above. I understand the proposal and offer my support for this development application for the following reasons:

In my role as president of National Seniors Gladstone Branch for 7 years until 2017 at least 40 members left Gladstone to move to retirement villages. These people left children & grandchildren here in many cases. As a volunteer with local organisations I know that many of these people are also lost volunteers.

Our community needs such places as this to retain our active senior citizens in our region.

Thank you for including my support in your considerations and I trust you will agree that this development is desperately needed and ideally located within the Gladstone Region.

Yours sincerely,

LOTS 11, 4 & 1 BRUCE HIGHWAY, BENARABY (CNR BRUCE HIGHWAY & TANNUM SANDS ROAD)
11SP200678, 1RP620530 & 4CTN2091

I write to express my support for the development application described above. I understand the proposal and offer my support for this development application for the following reasons:

I wish to remain in the area on retirement but there are no facilities which offer the options available here.
Close to beach & sporting facilities close to where I have lived for 45 years.
I don't want to move to the good retirement resorts available further south.

Thank you for including my support in your considerations and I trust you will agree that this development is desperately needed and ideally located within the Gladstone Region.

Yours sincerely, Brian Duncan

Dear Sir/Madam,

DA / 3 / 2018 - PUBLIC NOTIFICATION
MATERIAL CHANGE OF USE FOR RELOCATABLE RETIREMENT LIVING
LOTS 11, 4 & 1 BRUCE HIGHWAY, BENARABY (CNR BRUCE HIGHWAY & TANNUM SANDS ROAD)
11SP200678, 1RP620530 & 4CTN2091

GLADSTONE REGIONAL COUNCIL
Gladstone Office
Date: 13/12/18
Time: 11:01am
Name: Sonya G.

I write to express my support for the development application described above. I understand the proposal and offer my support for this development application for the following reasons:

Expert analysis shows there is a dire need for over 268 retirement dwellings in this region right now, growing to over 720 in the next 20 years. The proposed retirement village is very different to a residential development offering a community lifestyle, grouping likeminded over 50 year olds, encouraging social networking, development of community spirit and provision of recreational and community activities to keep retirees physically and mentally active boosting their wellbeing and preventing feelings of isolation.

This development is well planned and partly contained within the Priority Living Area under the CQ Regional Plan. Due diligence studies show it can be successfully implemented. It is a short drive to Shopping Centres, Medical Facilities and public recreational facilities and attractions.

This development is compatible with surrounding businesses and recreational activities. Acoustic amenity can be provided for residents. Expert noise studies have included adjacent business activities and maximum noise levels expected from the full Motorsport Precinct Masterplan. **Site agreements signed by residents will protect the Motorsport Precinct from reverse amenity issues. Quarry and Landfill activities will spread away from the housing area and will continue to pose no negative impact on the site. All dwellings will be outside the transport corridor.**

This development supports the **GRC Corporate Plan** offering diversity to the local economy will create a resilient community group, retaining over 50s who often volunteer for community/sporting clubs, charity groups and churches. It supports the **GRC Economic Development Strategy** providing business diversity, is a family owned enterprise, regionally focused addressing identified community need and is innovative being unprecedented in Australia.

This Lifestyle Village will be an enviable place to live, is extremely well researched, designed and planned by experts to ensure it is compatible with its neighbours, will be unique within Australia, will provide a substantial jobs boost to locals in the region and a substantial boost to the Gladstone Region economy with approximately \$300M investment. It will retain locals who will continue to support the local community through their expenditure with local businesses and their support of local clubs, groups and organisations with their membership and volunteerism.

Thank you for including my support in your considerations and I trust you will agree that this development is desperately needed and ideally located within the Gladstone Region.

Yours sincerely,

Dear Sir/Madam,

GLADSTONE REGIONAL COUNCIL
Gladstone Office
Date: 13/12/18
Time: 11-01 AM
Name: SONYA G.

DA / 3 / 2018 - PUBLIC NOTIFICATION
MATERIAL CHANGE OF USE FOR RELOCATABLE RETIREMENT LIVING
LOTS 11, 4 & 1 BRUCE HIGHWAY, BENARABY (CNR BRUCE HIGHWAY & TANNUM SANDS ROAD)
11SP200678, 1RP620530 & 4CTN2091

I write to express my support for the development application described above. I understand the proposal and offer my support for this development application for the following reasons:

Expert analysis shows there is a **dire need for over 268 retirement dwellings** in this region right now, growing to over 720 in the next 20 years. The proposed retirement village is **very different to a residential development** offering a community lifestyle, grouping likeminded over 50 year olds, encouraging social networking, development of community spirit and provision of recreational and community activities to keep retirees physically and mentally active boosting their wellbeing and preventing feelings of isolation.

This development is well planned and partly contained **within the Priority Living Area under the CQ Regional Plan**. Due diligence studies show it can be successfully implemented. It is a short drive to Shopping Centres, Medical Facilities and public recreational facilities and attractions.

This development is compatible with surrounding businesses and recreational activities. Acoustic amenity can be provided for residents. Expert noise studies have included adjacent business activities and maximum noise levels expected from the **full Motorsport Precinct Masterplan. Site agreements signed by residents will protect the Motorsport Precinct from reverse amenity issues. Quarry and Landfill activities will spread away from the housing area and will continue to pose no negative impact on the site. All dwellings will be outside the transport corridor.**

This development supports the **GRC Corporate Plan** offering diversity to the local economy, will create a resilient community group and retain over 50s in the region who often volunteer for community/sporting clubs, charity groups and churches. It supports the **GRC Economic Development Strategy** providing business diversity, is a family owned enterprise, is regionally focused addressing identified community need and is innovative being unprecedented in Australia.

This Lifestyle Village will be an enviable place to live, is extremely well researched, designed and planned by experts to ensure it is compatible with its neighbours, will be unique within Australia, will provide a substantial jobs boost to locals in the region and a substantial boost to the Gladstone Region economy with approximately \$300M investment. It will retain locals who will continue to support the local community through their expenditure with local businesses and their support of local clubs, groups and organisations with their membership and volunteerism.

Thank you for including my support in your considerations and I trust you will agree that this development is desperately needed and ideally located within the Gladstone Region.

Yours sincerely,

This development supports the **GRC Corporate Plan** offering diversity to the local economy, will create a resilient community group and retain over 50s in the region who often volunteer for community/sporting clubs, charity groups and churches. It supports the **GRC Economic Development Strategy** providing business diversity, is a family owned enterprise, is regionally focused addressing identified community need and is innovative being unprecedented in Australia.

This Lifestyle Village will be an enviable place to live, is extremely well researched, designed and planned by experts to ensure it is compatible with its neighbours, will be unique within Australia, will provide a substantial jobs boost to locals in the region and a substantial boost to the Gladstone Region economy with approximately \$300M investment. It will retain locals who will continue to support the local community through their expenditure with local businesses and their support of local clubs, groups and organisations with their membership and volunteerism.

Thank you for including my support in your considerations and I trust you will agree that this development is desperately needed and ideally located within the Gladstone Region.

Yours sincerely,

Dear Sir/Madam,

DA / 3 / 2018 - PUBLIC NOTIFICATION
MATERIAL CHANGE OF USE FOR RELOCATABLE RETIREMENT LIVING
LOTS 11, 4 & 1 BRUCE HIGHWAY, BENARABY (CNR BRUCE HIGHWAY & TANNUM SANDS ROAD)
11SP200678, 1RP620530 & 4CTN2091

I write to express my support for the development application described above. I understand the proposal and offer my support for this development application for the following reasons:

Expert analysis shows there is a **dire need for over 268 retirement dwellings** in this region right now, growing to over 720 in the next 20 years. The proposed retirement village is **very different to a residential development** offering a community lifestyle, grouping likeminded over 50 year olds, encouraging social networking, development of community spirit and provision of recreational and community activities to keep retirees physically and mentally active boosting their wellbeing and preventing feelings of isolation.

This development is well planned and partly contained **within the Priority Living Area under the CQ Regional Plan**. Due diligence studies show it can be successfully implemented. It is a short drive to Shopping Centres, Medical Facilities and public recreational facilities and attractions.

This development is compatible with surrounding businesses and recreational activities. Acoustic amenity can be provided for residents. Expert noise studies have included adjacent business activities and maximum noise levels expected from the **full Motorsport Precinct Masterplan. Site agreements signed by residents will protect the Motorsport Precinct from reverse amenity issues. Quarry and Landfill activities will spread away from the housing area and will continue to pose no negative impact on the site. All dwellings will be outside the transport corridor.**

This development supports the **GRC Corporate Plan** offering diversity to the local economy, will create a resilient community group and retain over 50s in the region who often volunteer for community/sporting clubs, charity groups and churches. It supports the **GRC Economic Development Strategy** providing business diversity, is a family owned enterprise, is regionally focused addressing identified community need and is innovative being unprecedented in Australia.

The proposed retirement village is **very different to a residential development** offering a community lifestyle, grouping likeminded over 50 year olds, encouraging social networking, development of community spirit and provision of recreational and community activities to keep retirees physically and mentally active boosting their wellbeing and preventing feelings of isolation.

This development is well planned and partly contained within the Priority Living Area under the CQ Regional Plan. Due diligence studies show it can be successfully implemented. It is a short drive to Shopping Centres, Medical Facilities and public recreational facilities and attractions.

This development is compatible with surrounding businesses and recreational activities. Acoustic amenity can be provided for residents. Expert noise studies have included adjacent business activities and maximum noise levels expected from the **full Motorsport Precinct Masterplan. Site agreements signed by residents will protect the Motorsport Precinct from reverse amenity issues. Quarry and Landfill activities will spread away from the housing area and will continue to pose no negative impact on the site. All dwellings will be outside the transport corridor.**

This development supports the **GRC Corporate Plan** offering diversity to the local economy, will create a resilient community group and retain over 50s in the region who often volunteer for community/sporting clubs, charity groups and churches. It supports the **GRC Economic Development Strategy** providing business diversity, is a family owned enterprise, is regionally focused addressing identified community need and is innovative being unprecedented in Australia.

This Lifestyle Village will be an enviable place to live, is extremely well researched, designed and planned by experts to ensure it is compatible with its neighbours, will be unique within Australia, will provide a substantial jobs boost to locals in the region and a substantial boost to the Gladstone Region economy with approximately \$300M investment. It will retain locals who will continue to support the local community through their expenditure with local businesses and their support of local clubs, groups and organisations with their membership and volunteerism.

Thank you for including my support in your considerations and I trust you will agree that this development is desperately needed and ideally located within the Gladstone Region.

Yours sincerely,

LOTS 11, 4 & 1 BRUCE HIGHWAY, BENARABY (CNR BRUCE HIGHWAY & TANNUM SANDS ROAD)
11SP200678, 1RP620530 & 4CTN2091**

I write to express my support for the development application described above. I understand the proposal and offer my support for this development application for the following reasons:

Expert analysis shows there is a **dire need for over 268 retirement dwellings** in this region right now, growing to over 720 in the next 20 years. The proposed retirement village is **very different to a residential development** offering a community lifestyle, grouping likeminded over 50 year olds, encouraging social networking, development of community spirit and provision of recreational and community activities to keep retirees physically and mentally active boosting their wellbeing and preventing feelings of isolation.

This development is well planned and partly contained **within the Priority Living Area under the CQ Regional Plan**. Due diligence studies show it can be successfully implemented. It is a short drive to Shopping Centres, Medical Facilities and public recreational facilities and attractions.

This development is compatible with surrounding businesses and recreational activities. Acoustic amenity can be provided for residents. Expert noise studies have included adjacent business activities and maximum noise levels expected from the **full Motorsport Precinct Masterplan. Site agreements signed by residents will protect the Motorsport Precinct from reverse amenity issues. Quarry and Landfill activities will spread away from the housing area and will continue to pose no negative impact on the site. All dwellings will be outside the transport corridor.**

This development supports the **GRC Corporate Plan** offering diversity to the local economy, will create a resilient community group and retain over 50s in the region who often volunteer for community/sporting clubs, charity groups and churches. It supports the **GRC Economic Development Strategy** providing business diversity, is a family owned enterprise, is regionally focused addressing identified community need and is innovative being unprecedented in Australia.

This Lifestyle Village will be an enviable place to live, is extremely well researched, designed and planned by experts to ensure it is compatible with its neighbours, will be unique within Australia, will provide a substantial jobs boost to locals in the region and a substantial boost to the Gladstone Region economy with approximately \$300M investment. It will retain locals who will continue to support the local community through their expenditure with local businesses and their support of local clubs, groups and organisations with their membership and volunteerism.

Thank you for including my support in your considerations and I trust you will agree that this development is desperately needed and ideally located within the Gladstone Region.

Yours sincerely,
