G/0.3.4. DISCLOSURE OF INTERESTS

MATERIAL PERSONAL INTERESTS

Pursuant to section 175(C) of the Local Government Act 2009, where a Councillor declares a Material Personal Interest in an agenda item, the Councillor must leave the room for the agenda item.

G/3.1.6. REQUEST TO DEVIATE FROM THE INFRASTRUCTURE CHARGES ECONOMIC DEVELOPMENT INCENTIVES SCHEME FOR DEVELOPMENT APPROVAL 32/2017 FOR NATURE BASED TOURISM AT 2546 ROUND HILL ROAD, ROUND HILL QLD 4677

Cr O'Grady

Councillor O'Grady declared a material personal interest in Item G/3.1.6. REQUEST TO DEVIATE FROM THE INFRASTRUCTURE CHARGES ECONOMIC DEVELOPMENT INCENTIVES SCHEME FOR DEVELOPMENT APPROVAL 32/2017 FOR NATURE BASED TOURISM AT 2546 ROUND HILL ROAD, ROUND HILL QLD 4677 as her brother, John Mergard, owns a block at 2717 Roundhill Road, Agnes Water. John may suffer a loss or gain a benefit dependent on the decision for this item.

Cr O'Grady advised that she will leave the room during the consideration of Item G/3.1.6.

G/8.3. SALE OF LAND FOR ARREARS OF RATES

Cr Trevor

Councillor Chris Trevor declared a material personal interest in Item G/8.3. SALE OF LAND FOR ARREARS OF RATES, as he currently has his principal place of residence and a large parcel of land capable for development for sale in Agnes Water that may suffer a loss or gain a benefit dependant on the decision for this item. He also owns a unit in North Break Drive, Agnes Water which is in close proximity to the subject properties.

Cr Trevor advised that he will leave the room during the consideration of Item G/8.3.

CONFLICTS OF INTEREST

Pursuant to section 175(E) of the Local Government Act 2009, where a Councillor declares a Conflict of Interest and elects to leave the room for an agenda item, a resolution of Council is not required.

G/3.1.1. BUILDING OUR REGIONS ROUND 5 - CONSIDERATION OF POTENTIAL PROJECTS FOR EOI

Cr Trevor

Councillor Chris Trevor declared a perceived conflict of interest in Item G/3.1.1. BUILDING OUR REGIONS ROUND 5 - CONSIDERATION OF POTENTIAL PROJECTS FOR EOI, as he made a one-off donation to the Police Citizens Youth Club of \$14,000 for a charity/sporting event.

Cr Trevor advised that he will leave the room during the consideration of Item G/3.1.1.

Cr Hansen

Councillor Rick Hansen declared a perceived conflict of interest in Item G/3.1.1. BUILDING OUR REGIONS ROUND 5 - CONSIDERATION OF POTENTIAL PROJECTS FOR EOI, as he is a current board member of the Police Citizens Youth Club and is a Life Member and Sponsor of Gladstone Amateur Basketball Association.

Cr Hansen advised that he will leave the room during the consideration of Item G/3.1.1.

Cr Churchill

Councillor Glenn Churchill declared a perceived conflict of interest in Item G/3.1.1. BUILDING OUR REGIONS ROUND 5 - CONSIDERATION OF POTENTIAL PROJECTS FOR EOI, as he is a Diamond Life Member of the State Police Citizens Youth Club and Chairman of the Gladstone Police Citizens Youth Club.

G/19 /3885 Council Resolution:

Moved Cr Trevor
Seconded Cr Masters

Cr Churchill has a perceived conflict of interest in Item G/3.1.1.

CARRIED

G/19 /3886 Council Resolution:

Moved Cr Trevor
Seconded Cr Masters

Cr Churchill leave the room during the consideration and voting of Item G/3.1.1.

CARRIED

Cr Sobhanian

Cr PJ Sobhanian declared a perceived conflict of interest in Item G/3.1.1. BUILDING OUR REGIONS ROUND 5 - CONSIDERATION OF POTENTIAL PROJECTS FOR EOI, as his former business Sun Valley Dental has been a sponsor of Gladstone Amateur Basketball Association.

Cr Sobhanian advised that he will leave the room during the consideration of Item G/3.1.1.

G/3.1.6. REQUEST TO DEVIATE FROM THE INFRASTRUCTURE CHARGES ECONOMIC DEVELOPMENT INCENTIVES SCHEME FOR DEVELOPMENT APPROVAL 32/2017 FOR NATURE BASED TOURISM AT 2546 ROUND HILL ROAD, ROUND HILL QLD 4677

Cr Trevor

Councillor Chris Trevor declared a perceived conflict of interest in Item G/3.1.6. REQUEST TO DEVIATE FROM THE INFRASTRUCTURE CHARGES ECONOMIC DEVELOPMENT INCENTIVES SCHEME FOR DEVELOPMENT APPROVAL 32/2017 FOR NATURE BASED TOURISM AT 2546 ROUND HILL ROAD, ROUND HILL QLD 4677 in that the proponents are inter alia real estate agents in Agnes Water owning PRD Agnes Water and he currently has two properties listed for sale with them as well as a unit which they manage for him as a managing agent.

However, Cr Trevor advised he has determined that this personal interest is not of sufficient significance that it will lead him to make a decision on this matter that is contrary to the public interest. Cr Trevor advised he will best perform his responsibility of serving the overall public interest of the whole Council area by participating in the discussion and therefore, Cr Trevor proposed to stay in the room for voting on this matter.

G/19 /3887 Council Resolution:

Moved Cr Churchill
Seconded Cr Muszkat

Cr Trevor does not have a conflict of interest in agenda Item G/3.1.6.

CARRIED

G/4.1.1 GLADSTONE ANZAC MEMORIAL, BOWLS AND CITIZEN CLUB - ACQUIRING GLADSTONE BOWLS CLUB LAND AND PERMISSION TO SUBMIT A PLANNING APPLICATION

Cr Trevor

Councillor Chris Trevor declared a perceived conflict of interest in Item G/4.1.1 GLADSTONE ANZAC MEMORIAL, BOWLS AND CITIZEN CLUB - ACQUIRING GLADSTONE BOWLS CLUB LAND AND PERMISSION TO SUBMIT A PLANNING APPLICATION as one of the Charity Walks in which he was heavily involved in organising and participating in from Mackay to Gladstone donated from memory close to \$20,000 to Ladies Legacy, a division of Gladstone RSL Sub-Branch.

As it was not a personal donation from either himself or his legal firm, he elected to stay in the room to hear the deputation.

G/1. MAYORAL STATEMENT OF CURRENT ISSUES

Our last Council meeting was held in Turkey Beach on 6 August; it is great to continue taking our Council meetings around the Gladstone Region. This is also being supported with our Conversations with Council event, which was then held in Mount Larcom on 14 August, and thank you Councillors who attended that as well. The Conversations with Council will continue across the region for the rest of the year and into next year.

On Sunday we had the Botanic to Bridge, and what a huge event that was; it was a sell-out event. It was sold out for the 3km and 8km event and just fantastic to see so many people out and about. I would love to see the drone footage, because from the Bowls Club as far as you could see up Goondoon Street it was absolutely packed. Later that morning I attended Vietnam Veterans Day Service in Gladstone and I would like to thank Councillor Muszkat and Councillor Churchill who represented Council at the other two services in the Region. For those who weren't aware, the soldier on top on the cenotaph in Gladstone is actually representing a Vietnam Veteran.

This week is Seniors Week and yesterday we started with a new event, which is called Unlikely Conversations; with Councillors, seniors and of course our younger generation, and it was a fantastic event. That is happening again today in Agnes Water, obviously unfortunately Councillors cannot attend that because they are all here and cannot be in two places at once. Seniors Week has a fantastic program this year, shout out to the team for the good work they have done putting the program together. Which of course includes the Our Priceless Past Exhibition launch on Thursday and the Mayor's Seniors Morning Tea on Friday. Then coming up on Saturday 31 August at the Tondoon Botanic Gardens is the Multicultural Festival and this will be the first time the festival will be held at the Botanical Gardens, so I'm looking forward to the event.

The Chair altered the Order of Business so that Item G/6 Urgent Business – Miriam Vale Water Security was considered next.

G/6. URGENT BUSINESS

The following urgent business was received:-

Background:

The Gladstone region was drought declared on 1 May 2019 by the Queensland Government, following a significant decline in rainfall this year.

Drought conditions have affected the water source at Baffle Creek, and Gladstone Regional Council is progressing with solutions to improve water security for the Miriam Vale township.

The Miriam Vale township has a population of approximately 515 made up of residential properties, small businesses, parks and open spaces and a Primary School.

Baffle Creek is the primary water source for the Miriam Vale township, while most other areas in Gladstone are connected to Lake Awoonga.

Council has explored solutions to safely supplement the existing water source including the identification of an alternate water source (aquifer below Baffle Creek), the installation of a bore and testing to determine quality and production yield.

The water extracted from the bore is currently being tested to ensure it is safe and reliable. This testing program will be conducted over thirty days. Whilst testing occurs, Council will supplement the water supply by trucking water to the Miriam Vale Water Treatment Plant. It is expected that six trucks per day will be required during the testing period.

The Miriam Vale township has been informed of the water supply conditions by correspondence on 5 August 2019.

A positive community consultation session on 8 August 2019 further informed the community and a collaborative effort to explore water reduction initiatives occurred.

Ongoing communication will occur with the Miriam Vale township with respect to water saving initiatives, in addition to a region wide Water Wise campaign.

The Bureau of Meteorology has predicted that the region will continue to experience dry conditions up to late 2019, and therefore Gladstone Regional Council has implemented its Drought Management Plan.

Consideration:

Following Council's quarterly water monitoring program, it was identified that the water levels in Baffle Creek had reduced to a level that would trigger the implementation of Council's Drought Management Plan.

In mid-July Council commenced with mitigation strategies to secure Miriam Vale's water supply. An element of the strategy included the identification of an aquifer below Baffle Creek which potentially could be used as the township's water source.

It is understood that the water extracted from the aquifer can be treated at Miriam Vale's Water Treatment Plant, and testing will commence on water quality in the fourth week of September.

During the four-week testing period, potable water will be transported to the Miriam Vale Water Treatment Plant to supplement the township's supply. It is estimated that up to six trucks will be required per day at a cost of \$910 per day.

The tested water from the process cannot be utilised as safe drinking water until after the thirty day testing regime is completed. Tested water will not be wasted and will be reused for Council's operations in water trucks, watering parks, and watering the Miriam Vale golf course greens.

Desktop modelling will be carried out on the aquifer to understand the volume of the source as an alternate water supply for the Miriam Vale township. The desktop modelling is scheduled to commence on the 26 August 2019 with the final report expected to be submitted to Council on the 27 September 2019.

Council's Drought Management Plan indicates that with the current creek levels level three (3) restrictions should be put in place. These restrictions are equivalent to an average consumption of 125 litres per person per day. Note this is measured based on the water meter usage not the output of the water treatment plant.

As at 31 July, average daily consumption was 206 litres per person per day.

This water consumption target is also in line with other regional Councils who have implemented water restrictions as a result of drought conditions.

Communication and Consultation (Internal/External):

A comprehensive communication and engagement strategy has been prepared to ensure that information is shared frequently with the residents of Miriam Vale and other key stakeholders with respect to the water restrictions.

Correspondence was distributed to letterboxes across Miriam Vale on the 5 August informing the township of the drought conditions and subsequent effect on the Baffle Creek water source.

Residents were invited to participate in a Community Information Session on 8 August at which Council Officers sharing information on the current situation. Following the information session, residents had the opportunity to contribute ideas on how to conserve and reduce water consumption with a target of 125 litres per person per day.

Following the community engagement session, a reduction of approximately 50 litres per person per day was recognised with an average daily usage of 170 litres per person per day. This usage will continue to be monitored on a weekly basis with results shared with the community.

The Drought Management Team have recommended that implementing a behavioural change campaign initially could drive positive results, with the community aligned to this approach.

Education programs and information will be shared on a regular basis with the community to support the change in behaviour with a drive to meet the 125 litres per person per day consumption target.

Should this behavioural change program render unsuccessful, a compliance program will be implemented for users that are not meeting requested restriction targets.

Attached to this report is the proposed Monitoring and Compliance Strategy for Councillors information.

Legal Environmental and Policy Implications:

Council's Drought Management Plan was developed in October 2009 and was repealed in the 2013/14 financial year.

Whilst Council does not have an approved Drought Management Plan, the introduction of water restrictions is in line with the original document and consistent with neighbouring Councils.

The review of Council's Drought Management Plan will be undertaken in quarter 2 of 2019/20 financial year to capture the learnings from the Miriam Vale water security exercise.

Financial and Resource Implications:

Council has established its Drought Management Team to prioritise activity with respect to the water security of Miriam Vale township.

The membership of this Drought Management Team is the Executive Team with the support of the Manager Water Program Delivery, Manager Asset Planning, Disaster Management Specialist and Personal Assistant to GM Operations. The DMT meet as a priority each Friday and will report relevant information with respect to decisions to Council for endorsement.

Supplementing the testing process with potable water will attract a fee of \$910.00 per day for a 30 day period. This is an unbudgeted cost, however will be consumed within the existing 2019/20 Council budget.

Several other costs have been incurred to secure Miriam Vale's water supply, including bore and pump installation, maintenance to the Miriam Vale Water Treatment Plant, consultancy support and internal employee education. Costs to date for the Miriam Vale water security project is \$363,744 (exc GST).

Commentary:

The primary water source for the Miriam Vale township is Baffle Creek that has been affected by ongoing drought conditions.

Water restrictions of 125 litres per person per day are now required to ensure longevity of the existing water supply in line with Council's Drought Management Plan.

An alternate water source below Baffle Creek has been identified and the aquifer will be tested to ensure water quality and volume of supply.

Residents have positively embraced water restrictions and have already demonstrated a reduction of water consumption following a positive community engagement forum.

It is the preference of the Drought Management Team to progress with a behavioural change campaign to achieve water consumption targets in the first instance.

Should consumption targets not be achieved, Council will progress to compliance-based monitoring for network users that are not supporting the restrictions.

The Drought Management Team seek Council's endorsement of the process to ensure the Miriam Vale township water security during the current drought conditions.

Summary:

On 1 May 2019, the Gladstone Region was drought declared by the Queensland Government and consequently water levels have declined at Baffle Creek – the primary water source for the Miriam Vale township.

Mitigation strategies have been employed to supplement the township's supply, and an aquifer has been identified under Baffle Creek. Bathymetric testing will be undertaken to understand the volume of the aquifer.

Similarly, quality testing will be undertaken over a 30-day period to ensure quality of the water source. During this period potable water will be transported from Gladstone to the Water Treatment Plant to supplement the water supply.

As per Council's Drought Management Plan, water restrictions will be put in place to ensure the longevity of the water supply. The Miriam Vale township has experienced water restrictions in the past with the region being drought declared in October 2003.

G/19 /3894 Council Resolution:

Moved Cr Trevor
Seconded Cr Churchill

It is recommended that Council endorse the following:

1. Restrictions are applied to residents connected to the Miriam Vale water network of 125 litres per person per day;
2. Consumption is monitored and communicated regularly to Miriam Vale residents to inform behavioural change;
3. Should water supply shortages continue and restriction targets are not met, Council reserves the right to transition to compliance-based water monitoring system.
4. Write to the Premier and Prime Minister stating the urgency of the water supply issue
5. Provide an urgent report on the Miriam Vale State School water infrastructure to a future Council meeting.
