Human and Social	Economic	Health and Environmental	Building	Infrastructure
Primary Planning & Coordination: GRC Community & Wellbeing	Primary Planning & Coordination: Economic Development Specialist	Primary Planning & Coordination: Health and Biosecurity, Environment and Conservation	Primary Planning & Coordination: Development Services	Primary Planning & Coordination: Operations, Strategic Asset Planning
<i>Human-social recovery includes the coordinated process of supporting affected communities in the provision of:</i>	<i>Economic recovery includes the coordinated process of supporting affected communities in:</i>	<i>Health and Environmental recovery includes the coordinated process of supporting affected communities in:</i>	<i>Building recovery includes the coordinated process of supporting affected communities in:</i>	<i>Infrastructure recovery includes the coordinated process of supporting affected communities in:</i>
Support individuals and households.	Assessing impact on key economic assets	Identifying and advising on environmental and cultural heritage impacts and the risks caused by the event and response operations (e.g. water quality, disease, soil and groundwater, landscapes, ecosystems, wildlife, heritage places and indigenous cultural heritage).	Providing temporary accommodation.	Identifying communities isolated or with interruptions to potable water and sanitation services and assigning prioritised resources for recovery works.
Social impact and needs assessment and monitoring.	Stimulating the renewal and growth of the economy within the affected area	Rehabilitating, conserving and supporting the natural recovery of impacted (or at risk) terrestrial, aquatic and marine ecosystems, wildlife, landscapes and natural resources.	Providing building advice and information to support community recovery.	Developing reconstruction projects and activities in collaboration with stakeholders.
Personal support and information.	Facilitating business, industry and economic recovery and renewal	Recovering and conserving impacted or at risk cultural heritage values and heritage places.	Providing advice to recovery "supply chain".	Implementing recovery and reconstruction plans, including monitoring and reporting.
Physical health and emotional support	Facilitating business assistance, access to funds and loans and employer subsidies	Supporting long term community sustainability needs (e.g. reinstating environmental protections and ecosystem services, and advancing Ecologically Sustainable Development principles in built environment recovery, economic recovery and waste management).		
Psychological, spiritual, cultural and social wellbeing support.	Ensure that businesses and industry groups and affected communities are involved in the decision making process	Ensuring that environmental and health bodies, affected communities and interest groups are involved in the decision making process		
Public safety and education support.	Recovering from the intangible effects of an event (e.g. loss of business confidence and quality of life etc.)			
Activities that ensure affected communities and interest groups are involved in the decision making process.
