Application and consent for fox den detection and fumigation on private property

Property Owner/Lessee:	
Phone no:	
Property address (Property):	
Fox den details:	<input type="checkbox"/> Location unknown <input type="checkbox"/> GPS Coordinates: _____ <input type="checkbox"/> Photos enclosed
Additional comments:	

In consideration of Padfoot Wildlife Management (Padfoot) supplying the personnel, tools, equipment and materials for the detection and fumigation of active fox dens on the Property, the Property Owner/Lessee:

1. Consents to authorised personnel and conservation detection dogs accessing the Property to survey for and fumigate active fox dens occurring on the Property.
2. Agrees to restrain or remove domestic animals from the Property to enable the control works to be undertaken.
3. Confirms that no 1080 or other pest animal baiting has been undertaken on the Property that may risk the safety of conservation detection dogs.
4. Agrees that authorised personnel may use trail cameras on the Property to monitor for fox activity and confirm age of fox cubs prior to den fumigation.
5. Agrees to follow directions of authorised personnel and remain clear of area while den fumigation is undertaken.
6. Acknowledges and agrees that whilst all reasonable care is taken by Padfoot:
 - (b) survey that does not locate an active fox den does not preclude foxes from being present on or frequenting the Property;
 - (c) den fumigation does not guarantee the control of foxes on the Property. Dens can be excavated by other foxes or used in subsequent years. Additional control methods such as trapping may also be required.
7. Consents to follow up inspections at mutually agreed times to determine success and compliance.
8. Acknowledges and agrees that participation in the program does not exclude the Property Owner/Lessee from compliance with the *Biosecurity Act 2014* and Council may still undertake compliance and enforcement.
9. Agrees to indemnify Padfoot in respect to, and releases Padfoot from, all claims for damages, loss, injury or death arising from fox den detection and fumigation on the Property; except to the extent of any unlawful act or negligence of Padfoot.
10. Padfoot agrees to wash down vehicles before entering the Property and to leave gates as found.
