

GLADSTONE
REGIONAL COUNCIL

**STATEMENT OF MANAGEMENT INTENT
FLYING-FOX ROOST MANAGEMENT**

2014

1. Authority

Under the *Nature Conservation Act 1992*, local governments in Queensland have an as-of-right authority to undertake roost management at flying-fox roosts in designated Urban Flying-fox Management Areas (UFFMAs). An UFFMA for a local government area is defined by maps available from the website of the Department of Environment and Heritage Protection (EHP).

Outside an UFFMA, a local government requires a Flying-fox roost management permit (FFRMP), available from EHP. A non-council applicant requires a FFRMP irrespective of the location of the roost.

Further information on the Queensland Government's roost management framework is available at the following webpage:

<http://www.ehp.qld.gov.au/wildlife/livingwith/flyingfoxes/roost-management.html>

2. Purpose

The purpose of this Statement of Management Intent (SoMI) is to articulate the approach that Gladstone Regional Council will take to the management of flying-fox roosts in the Gladstone Region.

3. Location of the UFFMA in Gladstone Regional Council

A map of the Gladstone Regional Council UFFMA is available at the following webpage:

<https://www.ehp.qld.gov.au/wildlife/livingwith/flyingfoxes/maps/gladstone-regional.pdf>

Residents who wish to view a map of their own property in relation to the UFFMA can do so through the following website:

<http://www.ehp.qld.gov.au/wildlife/livingwith/flyingfoxes/management-areas/map-request.php>

4. Council intentions and considerations

Council will co-ordinate the management of flying-fox roosts on Council owned or State land placed under the control of Council pursuant to the *Land Act 1994* within and outside the UFFMA. Costs relating to the management of the flying-fox roost will be negotiated prior to the application for or implementation of any permit or action.

Where a flying-fox roost is on Council owned or State land placed under the control of Council pursuant to the *Land Act 1994* and either State land(s) or private land(s), Council will work with the relevant landholder to manage the flying-fox roost. Costs relating to the management of the flying fox roost will be the responsibility of both Council and the relevant landholders and will be negotiated prior to the application for or implementation of any permit or action.

Council's intent is to have no involvement in the management of flying-fox roosts solely on State land(s) or private land(s) or a combination of the two.

Factors that Council will consider before deciding whether to take any action at particular sites, includes:

- The wellbeing impacts and concerns that nearby residents are experiencing;
- Whether Council considers that there are any risks to human health or wellbeing from the roost;
- Whether the roost is on Council land and State land(s) or private land(s), and if State land(s) or private land(s), whether consent for Council to undertake management has

been provided by all relevant landholders, and full cost recovery, proportionate to the land, has been agreed to.

Additional factors that Council will consider in deciding the most appropriate action to take at particular sites, includes:

- The cost of various management actions; and who would contribute to these costs;
- The number of each species of flying-foxes at the roost, and what Council's intention would be should the flying-foxes be breeding or rearing their young;
- Whether good outcomes may be achieved with minimal management interventions (such as community education) or moderate management interventions such as 'nudging' or 'buffering', processes by which the impact of an existing roost may be managed by its reduction.

Further factors that Council will consider, where Council decides, for particular sites, that the most appropriate action is dispersal, includes:

- The number of years that flying-foxes have used a particular roost site;
- The likelihood of flying-foxes relocating to a site of greater conflict with the community
- Whether flying-foxes at the site are capable of independent flight at the time of year proposed for driving them away
- Whether a proposed management action may cause harm to flying-foxes.

If residents are dissatisfied with Council's approach at a particular roost site, they may apply for a permit directly from EHP.

If a roost is on private land(s), low impact activities may be undertaken by a person as-of-right under the relevant code of practice. The *Code of practice – Low impact activities affecting flying-fox roost*.

Council's roost management actions will be undertaken in compliance with the *Code of Practice – Ecologically sustainable management of flying-fox roosts*.

5. Further information

For further information on flying-fox management contact Gladstone Regional Council on 4970 0700 or visit Council's website at <http://www.gladstone.qld.gov.au/> or visit the Department of Environment and Heritage Protections website at <http://www.ehp.qld.gov.au>.
