6 November 2023

Half-yearly water meter readings commencing soon

Gladstone Regional Council advises that its next period of half-yearly water meter readings will commence from Monday, 13 November 2023.

Readings are expected to be completed by mid-December.

Council staff undertaking water meter readings will be dressed in GRC-branded clothing and carry an authorised officer card featuring photographic identification.

Residents are asked to keep water meters accessible and not obstructed by building materials, dirt, soil, vehicles or other objects.

It is also asked that residents keep unrestrained dogs controlled and gates closed.

Water consumption notices for the half-year period will be issued in February 2024.

Residents unable to locate their water meter can phone Council on 4970 0700.
