## Half-yearly water meter readings taking place from next week

Gladstone Regional Council (GRC) advises that its next period of half-yearly water meter readings will commence from Monday 11 November.

Council staff conducting readings will be dressed in GRC-branded clothing and will carry an authorised officer card featuring photographic identification.

Residents are asked to keep water meters accessible and clear of building materials, soil, vehicles, or other objects.

Council also reminds residents to keep unrestrained dogs controlled and gates closed.

Readings are expected to be completed by mid-December.

Water consumption for this period will be billed in the half-yearly consumption notice to be issued in February 2025.

Residents unable to locate their water meter can phone Council on 4970 0700.
